Student Achievement

In AY 2022-2023 our second year MCRP students partnered with organizations in the state of North Carolina to work on a range of planning projects and delivered final reports to organizations such as the Durham Housing Authority, Oaks and Spokes, the Raleigh Area Land Trust, and Triangle J Council of Government. The students worked with these organizations to produce technical reports tackling planning issues related to their mission. At the end of the year, each community partner evaluated the students' contributions and their readiness for professional practice in planning. The overwhelming majority of respondents agreed that the MCRP students had demonstrated the necessary skills for planning.
