

## Climate Corps Fellow

### Environmental Defense Fund

Multiple locations, including New York, NY; San Francisco, CA; Chicago, IL; Boston, MA; and other U.S. cities and towns.

Remote, hybrid, and on-site options available.

**Job Type:** 10-12 week summer fellowship

### Jump-Start Your Sustainability Career

Climate Corps is the go-to graduate fellowship program for a career in sustainability. Graduate students from a variety of disciplines to work for a summer with companies and public institutions to identify opportunities to reduce emissions in their operations and supply chains and meet climate commitments. Fellows will gain access to an interactive training as well continuing education, including professional development opportunities, online resources and opportunities to connect with and learn from our network.

Since 2008, Climate Corps has placed almost 1,500 fellows in host organizations including NYC Mayor's Office of Climate and Environmental Justice, AirBNB, Allbirds, CAVA and Goldman Sachs. A list of 2023 host organizations will be available to candidates during the interview process. Fellows are matched with host organizations based on their location, industry and project type preferences. See the full list of past organizations on our [website](#).

### Projects to Match Your Unique Skills and Career Goals

Working under the guidance of a host supervisor and EDF engagement manager, fellows uncover emissions reduction opportunities and develop climate solutions for their host organization. Projects culminate in a written report and series of recommendations to the host organization. Projects may focus on:

- **Climate Commitments:** *Conduct analysis and build strategies for emissions reductions in operations and supply chains.*
- **Renewables and Energy Efficiency:** *Identify opportunities for renewable energy and energy efficiency.*
- **Zero Emission Vehicles:** *Build roadmaps for the electrification of fleets.*
- **Food & Ag:** *Reduce food waste and determine emissions reduction opportunities in animal agriculture.*

### Required Qualifications

- At the time of application, enrolled in a graduate certificate or degree program studying engineering, business, sustainability, environmental management, public policy or other relevant subjects.
- Self-starter with project management and leadership experience, including demonstrated success aligning and collaborating across teams.
- Strong oral and written communication skills, including presentation skills.
- A passion for solving environmental challenges.
- Eligible to work in the United States during the summer of 2023.

Depending on available projects, additional skills may be useful:

- Financial analysis skills, including project valuation.
- Experience working on energy efficiency, clean energy, vehicle electrification, food waste or other related sustainability projects.
- Proficiency in quantitative and/or qualitative data analysis.
- Familiarity with greenhouse gas emissions accounting and reporting frameworks (e.g., CDP, GHG Protocol, The Climate Registry).

If you're excited about this program but your past experience doesn't align with every listed skill, we encourage you to apply. Individual projects will not require all listed skills and we are seeking fellows from a variety of fields. As Climate Corps aims to strengthen the next generation of climate leaders to accelerate the transition to a clean energy future for all, we recognize that our individual and collective futures depend on the contributions of people from all backgrounds and identities – both visible and invisible- to create lasting environmental solutions. The Climate Corps program is proud that

our fellows represent a diverse population of individuals and believes this diversity makes our program stronger.

*All Climate Corps fellows are required to participate in the week-long Fellow Training from in late May hosted virtually on Zoom.*

### **Compensation**

\$1,400 per week for 10-12 weeks, plus one week's salary for participation in Fellow Training.

### **Application Deadline**

Please visit our website to complete your [2023 fellow application](#). For early consideration and the best opportunity to be matched with one of your preferred host organizations, please apply by **November 29, 2022 11:59 pm PT**. The final application deadline is **January 10, 2023 11:59 pm PT**. For more information about the timeline and program, please visit the [Climate Corps website](#). Environmental Defense Fund is an Equal Opportunity Employer.
